

The Alfa LIS

Laboratory Integration with Electronic Health Records

With the growing adoption of Electronic Health Record systems (EHR), physician practices are faced with integrating laboratory instruments to the EHR. To maximize your success, Alfa Wassermann offers the Alfa Laboratory Information System (LIS).

The Alfa LIS is tailored to the ACE Axcel and adaptable to your laboratory, offering additional ways to streamline workflow. Information flows quickly and accurately between lab instrumentation and your EHR, increasing productivity and improving patient care.

- Integrates lab to any certified EHR
- Connects up to 8 instruments from any manufacturer
- Manages analyzers' Quality Control
- Prepares CLIA compliance reports
- Compact, all-in-one touch screen PC
- Intuitive user interface
